

REMARKS/ARGUMENTS

The specification is amended to include a cross-reference to related applications.

Claim 4, 8 and 10-12 are not amended. Formula (2) in claim 9 is amended to recite " $\text{Mo}_h\text{Bi}_i\text{Fe}_j\text{Fe}_k\text{G}_l\text{O}_m(\text{SiO}_2)_n$ " rather than " $\text{Mo}_h\text{Bi}_i\text{Fe}_j\text{Fe}_k\text{G}_l\text{O}_m(\text{SiO}_2)_n$ " (emphasis added). The amendment is supported by the specification at, e.g., page 7, lines 1-2. No new matter has been added.

The amendment is necessary to ensure that formula (2) of claim 9 is the same as the formula 2 recited on page 7 of the filed specification. The amendment relates to a matter of form; thus, no new search and/or consideration issues are raised. The claims are patentable for the same reasons given during prosecution of the above-identified application. This informality was discovered by Applicant's representative during a post-allowance review of the claims.

Entry of the amendment is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, L.L.P.
